

Online Peer Supervision through the Practice of Examen

"Supervision is a welcoming space where spiritual directors/companions may be supported and encouraged in their practices. Grounded in Lucy Abbott Tucker's supervision methods of affirmation, self-reflection, consultation, challenge and education, directors/supervisees will come away from sessions with renewed energy and insights into the ministry of spiritual direction." - Joan Alexander

You are warmly invited to join the Center for Spiritual Formation for our quarterly gatherings focused on the practice of Examen. Come and share in a time of centering, reflection, and group processing.
